

# Targeter Queries

The **Targeter Queries** tool allows those with access the ability to manage all Targeter queries created by your institution.

The contents of this table include:

- **Query Name:** The name given to the saved query.
- **Owner:** The owner is the user at the institution to edit/delete the query. By default this is the creator of the query.
- **Edit:** From here, the System Administrator can update the query's name, description, owner, and whether the query is Public or Private.
- **Delete:** Allows the administrator to delete the query for all users. NOTE: This will also delete all subscriptions associated to this query.

Query Name	Owner	Edit	Delete
Query 1	John Doe		
Query 2	Jane Smith		
Query 3	John Doe		
Query 4	Jane Smith		
Query 5	John Doe
