

# Ask Amount Comparison

The **Ask Amount Comparison** viewport displays the number of proposals submitted and granted at various proposal values. This report can help you to visualize whether or not you are targeting proposals at the right levels and better understand what is driving your institution's performance. The **Asked In** columns display the number of proposals during the specified period that had an Ask Amount within the Proposal Value Range. The **Granted In** columns display the number of proposals during the specified period that were granted and had a Granted Amount within the Proposal Value Range.

Click on any of the links within the chart to display a list of the proposals that make up the results.
