

Version 4.5.8 - March 23, 2018

This list consists of key new features, as well as issues reported by or of interest to customers. It is not an exhaustive list of updates.

New Features and Improvements

1. Activity Center customers can now upload attachments to Contact Reports created in Activity Center.
2. The display of Tasks in Activity Center has been updated to have their own dedicated page.
3. In Targeter, a new field has been added to the Proposal Power Filter for Funding Type.

Bug Fixes

1. Editing a Contact Report now saves changes if a Project of Interest is selected.
2. The drilldown details for several viewports have been updated to more accurately reflect the expected results.
