Version 4.6.2 - May 18, 2018

This list consists of key new features, as well as issues reported by or of interest to customers. It is not an exhaustive list of updates.

New Features and Improvements

1. A new dashboard has been added to the Advancement layer called Campaign Reporting. This new dashboard is designed to provide high-level detail on your institution's capital campaigns.
2. The display of the Integrations page in Control Panel has been updated.

Bug Fixes/Maintenance

1. In Major Giving > Prospect Assignments, the Prospect Rating column has been updated to sort more accurately.
2. The Prospects viewport in Console has been restored for schools that use grouped prospects.
