

Version 4.6.3 - June 1, 2018

This list consists of key new features, as well as issues reported by or of interest to customers. It is not an exhaustive list of updates.

Bug Fixes/Maintenance

1. Within Control Panel, the Code Mapping menu for Measured Contacts has been updated so it no longer loads indefinitely after saving updates.
2. For Activity Center customers, the ability to add or edit a related proposal on a contact report after it has been created has been restored.
3. For Activity Center customers, proposal editing has been updated to ensure that project of interest values persist while saving edits.
4. Notification cards that display in the drawer related to tasks are now able to be dismissed as expected.
