

Version 4.7.1 - September 21, 2018

This list consists of key new features, as well as issues reported by or of interest to customers. It is not an exhaustive list of updates.

New Features/Improvements

1. Class Agent volunteers will now be able to see more detail about past activities when viewing a prospect, including which agent logged the activity and what campaign they were a part of.

Bug Fixes/Maintenance

1. An issue that caused the Officer Goal Monthly Status email to list each goal twice has been resolved.
2. The Goals by Officer viewport in Console is now showing more accurate goal values when more than one officer is selected.
3. The viewports in Advancement > Campaign Reporting now display on your first visit, without having to change any of the page filters.
