

Version 4.7.5 - November 16, 2018

This list consists of key new features, as well as issues reported by or of interest to customers. It is not an exhaustive list of updates.

New Features/Improvements

1. The loading experience on Advancement > Campaign Reporting has been updated to more accurately represent your current selections.
2. The drawer on the right side of the platform has been improved so it will no longer fail to fully load if opened too quickly.

Bug Fixes/Maintenance

1. On Relationship Profile, the Related Prospects field will no longer display entities from deleted proposals.
2. In Console, the drilldowns for the Goals by Officer viewport have been updated so they load more consistently across browsers.
