

Version 4.7.7 - December 21, 2018

This list consists of key new features, as well as issues reported by or of interest to customers. It is not an exhaustive list of updates.

New Features/Improvements

1. In Targeter, a new filter for Total Political Giving has been added within the Automatic Screening category.
2. In Targeter, a new column for Total Political Giving has been added within the Automatic Screening category.

Bug Fixes/Maintenance

1. In Console, the display of Officer Goals defined as greater than 0 or greater than or equal to 0 has been fixed so they again return results.
2. For Activity Center customers, when creating a new Contact Report, an issue that caused the Add Spouse functionality to not properly display the spouse's name has been resolved.
