Version 4.8.6 - May 2, 2019

This list consists of key new features, as well as issues reported by or of interest to customers. It is not an exhaustive list of updates.

Improvements

1. The results in the Prospect ID column has been improved to display values for both assigned and unassigned Prospects.

Bug Fixes/Maintenance

1. The issue preventing Volunteer Network Fundraising agents from receiving an email notification when their prospects submitted a donation has been resolved.
2. When viewing a Proposal-based drilldown, removing the Proposal Status column no longer causes an error.
3. When assuming a user via Control Panel, the correct Activity Center permissions for the assumed user are available.
