

# Week of June 3 - June 7, 2019

This list consists of key new features, as well as issues reported by or of interest to customers. It is not an exhaustive list of updates.

## Improvements

1. On the Relationship Profile, Prospect-specific fields like Prospect Stage and Prospect Rating have been moved out of the column on the right into a new table immediately below that section.

## Bug Fixes/Maintenance

1. An issue that prevented the Gift Band Comparison viewport from loading correctly has been resolved.
2. The name on a user's Blackbaud ID profile is no longer replacing the display name for a user, if different.
