Week of June 10 - June 14, 2019

This list consists of key new features, as well as issues reported by or of interest to customers. It is not an exhaustive list of updates.

Improvements

1. Drilldowns for the prospect-based viewports in Major Giving > Officer Performance (such as Prospect Stage Distribution vs. Peer Group) have been enhanced for clients using Advance. Those drilldowns now details about each prospect, alongside the entities associated with those prospects.

Bug Fixes/Maintenance

1. An issue that prevented the Prospect Rating, Prospect Stage, and Prospect Classification columns from displaying from the list of available columns has been resolved.
2. In Volunteer Network Fundraising, managers are now able to update the viewports in Results by choosing segments from the dropdown at the top of the page.
