

Week of July 1 - July 5, 2019

This list consists of key new features, as well as issues reported by or of interest to customers. It is not an exhaustive list of updates.

Improvements

1. The display of the Prospects table on the Relationship Profile has been improved to show more values in the entity column.

Bug Fixes/Maintenance

1. An issue that caused Advance customers to see inactive Prospects when adding a Prospect to a Proposal has been resolved.
