Week of July 15 - July 19, 2019

This list consists of key new features, as well as issues reported by or of interest to customers. It is not an exhaustive list of updates.

Improvements

1. The Proposal Activity by School/Unit viewport has been updated to include a Declined # column, like other viewports in Major Giving > Proposals.

Bug Fixes/Maintenance

1. Certain users were unable to access the Prospect Rating, Prospect Stage, and Prospect Classification columns. That access has been restored.
2. On the FPM mobile app, an issue that prevented users at certain schools from accessing Prospect Assignments has been resolved.
3. In Targeter, choosing the "Never" option for the Contact or Activity Type filter has been updated to display entities that have never been contacted.
