

# Week of August 5 - August 9, 2019

This list consists of key new features, as well as issues reported by or of interest to customers. It is not an exhaustive list of updates.

## Improvements

1. Institutions with custom fields now can view those fields on each entity's Relationship Profile, in addition to be accessible as a Targeter column.

## Bug Fixes/Maintenance

1. An issue that prevented householding from being enabled when viewing results in a drilldown has been resolved.
2. The Proposal "amount" columns in drilldowns have been updated to more consistently show accurate totals.
3. Volunteer Network Fundraising has been updated in several key areas to load results more quickly.
