Week of August 12 - August 16, 2019

This list consists of key new features, as well as issues reported by or of interest to customers. It is not an exhaustive list of updates.

Improvements

1. A Project of Interest column has been added to tables that show a list of proposals in Console, Major Giving > Proposals, and on Relationship Profiles.

Bug Fixes/Maintenance

1. Users accessing FPM via Firefox should see improved loading times while in the Major Giving layer.
2. An issue preventing the Birthday filter in Targeter from showing correct results has been resolved.
3. Some clients were unable to add Prospect Rating, Prospect Stage, and Prospect Classification to results in Targeter. Those columns are now available again.
