Week of September 2 - September 6, 2019

This list consists of key new features, as well as issues reported by or of interest to customers. It is not an exhaustive list of updates.

Improvements

1. On the Relationship Profile, the display of officers and entities on the Prospects table has been improved for prospects with a large number in either category.
2. When printing a Relationship Profile, custom columns for your institution will be included.

Bug Fixes/Maintenance

1. Users are now able to submit changes on the User Preferences section of Control Panel again.
