

Proposal Status by Expected Date

The **Proposal Status by Expected Date** Viewport displays the proposals associated with selected officers that have an expected date during the selected fiscal year.

This Viewport looks for proposals with an Expected Date in a given month, and then groups them into one of four different statuses.

You can toggle between the **Count** of proposals in each status or the total dollar **Amount** of proposals in that status.

The dollar amount value calculated for each proposal is based on the status it is in:

- **In Development** proposals use Target Ask Amount
- **Asked** proposals use Ask Amount
- **Granted** proposals use Granted Amount
- **Declined** proposals use Ask Amount

Key Definitions Related to this Viewport:

- **In Development:** Proposals that have not yet been asked. They have an "In Development" status.
- **Asked:** Proposals that have been asked and are awaiting a response. They have an "Submitted/Pending" status.
- **Declined:** Proposals that have been declined. They have a "Declined" status.
- **Granted:** Proposals that have been granted. They have an "Approved" status.
- **Target Ask Amount:** The target or goal amount established prior to asking the prospect for a fundraising commitment.
- **Ask Amount:** The original amount requested from the donor.
- **Granted Amount:** The final amount received from a granted proposal.
