

November 2021

The release notes reflected below are from the past several releases of Fundraiser Performance Management. This list consists of key new features, as well as issues reported by or of interest to customers. It is not an exhaustive list of updates.

Please note since the [last release](#), the majority of the releases have been focused on high urgency bug fixes and behind-the-scenes improvements.

New Features

- For Activity Center users, "Task Type" is now available on the "Task Form". Record the type of task being recorded by selecting from a drop down menu of standardized options. If you want to supply your own, custom list of options, please contact your Strategic Business Consultant for more information. You can sort on the task information in the "Tasks" viewport on Console. To watch a short six second video on the new functionality, click [here](#).

Bug Fixes/Maintenance

- Targeter subscriptions that were failing have been fixed. This was impacting several clients and those subscriptions are now running as expected.
- General bug fixes and improvements
